Mālama and Kuleana

Our Science class will continuously learn and practice Hawaiian values this year. Currently, we are learning the values of mālama which is to care for and kuleana which is responsibility. Each student brainstormed activities or projects they could do at home to practice these values.

Your child has committed him/herself to carry out these task(s) over the weekend. Please support your child in his/her efforts and sign below to indicate that you have received this notice and he/she has completed the task. After completing the task, your child must also write a journal reflection about it.

Mahalo,
Ms. ______
Mr. ______

Science in Hawai‘i: Nā Hana Ma Ka Ahupua’a – A Culturally Responsive Curriculum Project
Mālama and Kuleana Journal Reflection

Describe your project and the people involved. What was their reaction? What were your thoughts or feelings toward their reaction? Describe the thing you liked best about this project? How did doing this project improve your understanding of mālama and kuleana?
